

### Music

This term, we will be taking advantage of coaching by the Music Service. We will also be learning how to make the best use of our vocal skills, in readiness for the Christmas production.

### Science

**Animals, including humans:** We will be learning about skeletons and muscles. Later in the term we will focus on what nutrients our bodies need to remain healthy. This will be followed by increasing our understanding of teeth and our digestive system.

### English

Reading, Writing, Speaking and Listening. We will focus on different text types this term, including information texts and adventure stories, formal letters and scripts. Throughout these, children will build on their sentence structures and vocabulary, a range of punctuation and may work towards gaining their pen licences.

### ICT

We will be looking at E-Safety and some of the strategies to help stay safe on-line. We will also be looking at how to use the internet for research and how check the reliability of a source.

### P.E.

PE will involve improving our spatial awareness, fitness, ball skills and knowledge of game rules for invasion and ball games such as rugby, dodgeball and football.

Hazel Class Autumn

### R.E.

We will be exploring what Christians believe and investigating some of the key aspects of the faith, such as important festivals, symbols.

### French

Children will be taught French by language specialists from the High School. They begin by building up vocabulary and gaining confidence in speaking.

### Art

We will be learning about colour and how to manipulate this to create different atmospheres; this will link in with our Adventure writing, in English.

### D&T

We will be putting our design and constructions skills to the test by creating our own Anglo-Saxon homes.

### History

This term, we will be learning all about the Anglo-Saxons. We will be researching where they came from, why they came, how they selected where to build their settlements, how they lived, as well as their beliefs and culture.

### Maths

We will be focusing on our number and problem solving skills. Including place value, comparing numbers, times tables and the four operations – addition, subtraction, multiplication and division. Later we will look at fractions, measure, data handling and shape.

### Geography

We will be working on our map skills, with particular emphasis on different land use. We will also looking at the symbols used as well as having a go a draft a basic map.
